Commitment 1: Fully dedicated to serving all its clients

This ambitious digitization project was completed in August 2018.

A total of 622,290 CEF files were digitized, although the original estimate at the start of the project was 640,000. The gap is due to the fact that LAC combined the files of soldiers who enlisted more than once and for whom there was consequently more than one paper file.

2. Reach 10 million downloads annually from the Library and Archives Canada (LAC) website

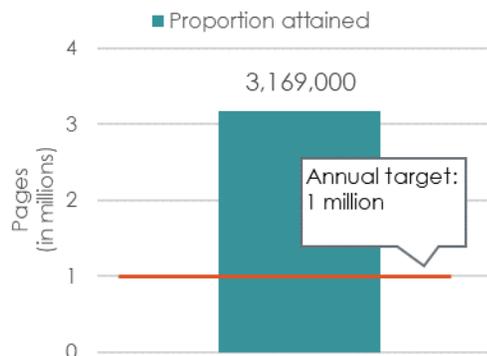

Number of downloads from the LAC website in 2018-2019

5. Ensure that LAC's website continues to be one of the top 15 most-visited federal government sites

It is no longer possible to measure this indicator because Service Canada stopped compiling the report on visits to Government of Canada websites in June 2018.

6. Optimize our tools so that 85% of traffic to our website results from a referral by a major search engine such as Google or from social media platforms
